As a contract company for the development and manufacturing of biopharmaceuticals, Rentschler makes an essential contribution to the worldwide availability of biopharmaceuticals. We are a strongly growing family-owned company employing approximately 850 employees. Last year Rentschler doubles its manufacturing capacity to address growing demand for biopharmaceuticals. To address this expansion we have to enlarge our team.

What unites us at Rentschler, is the passion for what we do. Every member of our team, with the knowledge and skills, is actively committed to the success of our projects. You can become a part of our team! We offer you an exciting work environment with excellent career development opportunities.

Our Supply Chain Management is currently seeking to start as soon as possible.
